

We like to think of making a Will as making an investment in your future. Many of us do not want to think about our own mortality or what will happen as we grow old, but the simple truth is that making a Will or a Power of Attorney is a simple way to give yourself some peace of mind

Our dedicated and specialist team can provide you with clear and sympathetic advice on anything and everything to do with **Wills, Powers of Attorney, Trusts, Contentious Wills, Estate Administration and Life Planning.**

For some, making a Will can be a daunting experience but we are happy to work with you. Our experts will help you through the process of either making a new Will or reviewing your existing Will.

It is so important to all of us that our wishes are carried out should the inevitable happen and ensuring you have a properly considered and drafted Will will benefit all of your loved ones.

## Wills can be used to:

- + Ensure your loved ones are protected after your death;
- + Choose who should care for your children;
- + Specify who will deal with your estate after your death;
- + Avoid your assets going to people you had not intended;
- + Protect your business interests;
- + Minimise the payment of Inheritance Tax due on your death;
- + Ease the administration of your affairs for your surviving family.

## Our Wills process

Our aim is to make the whole experience of making a Will as effortless as possible. No-one likes to discuss the inevitable, but with our expertise, we will tailor your Will to your specific needs and give you peace of mind.
